

CALL FOR PAPERS

IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing

Special Issue on

“IEEE 2016 International Geoscience and Remote Sensing Symposium (IGARSS 2016)”

The IEEE 2016 International Geoscience and Remote Sensing Symposium (IGARSS 2016) is being held in Beijing, China, on July 11-15, 2016. This is the premier symposium of the IEEE Geoscience and Remote Sensing Society (GRSS). IGARSS is a major scientific and technical event in remote sensing.

As tradition, a special issue of the IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing (J-STARS) is planned in conjunction with IGARSS 2016.

Papers submitted to J-STARS should NOT be the IGARSS conference paper. A 2 to 3 times longer paper is typically expected, with a more detailed presentation of the work, and possibly to include additional data sets and comparisons in an enhanced experimental section.

Format

All submissions will be peer reviewed according to the IEEE Geoscience and Remote Sensing Society guidelines. Submitted articles should not have been published or be under review elsewhere. Submit your manuscript on <http://mc.manuscriptcentral.com/jstars>, using the Manuscript Central interface and select the “IGARSS2016” special issue manuscript type. Prospective authors should consult the site <http://ieeexplore.ieee.org/stamp/stamp.jsp?tp=&arnumber=7416303> for guidelines and information on paper submission. All submissions must be formatted using the IEEE standard format (double column, single spaced). For a template in this format please see http://www.ieee.org/publications_standards/publications/authors/author_templates.html. Please note that IEEE J-STARS applies a mandatory page over length charge of \$200 per page (beginning with page 7 and beyond).

Schedule

Sept 15, 2016: Full paper submission deadline

July 2017: Publication date

Guest Editors

Ji Wu, National Space Science Center, CAS, China (wuji@nssc.ac.cn)

Yaqiu Jin, Fudan University, China (yqjin@fudan.edu.cn)

Jiancheng Shi, Institute of Remote Sensing and Digital Earth, CAS, China (shjc@radi.ac.cn)

Huadong Guo, Institute of Remote Sensing and Digital Earth, CAS, China (guohd@radi.ac.cn)

Kun-shan Chen, Institute of Remote Sensing and Digital Earth, CAS, China (chenks@radi.ac.cn)
