

**International Spaceborne Imaging Spectroscopy
IEEE GRSS Technical Committee & Working Group (ISIS WG)
Munich, July 23, 2012 Meeting**

Goals for the TC & WG are to foster increased synergy and interoperability among future international imaging spectroscopy (hyperspectral) missions, their associated ground-segments, to facilitate international partnerships and to maximise uptake by the earth observation user community.

July 23, 2012

Time	Topic	
17:20	Welcome, Introduction	K. Staenz
17:25	Mission Summary	All
17:30	Virtual Satellite Constellation (formation flying)	All
17:40	Data Availability (free of charge?)	All
17:45	Data Sets Products Desired	All
18:55	Calibration Sites (coordination with CEOS/IVOS?)	All
18:00	Future of ISIS (status (past), revisit role of ISIS, future directions, etc.)	All
18:15	New Co-Chair	All
18:20	Actions, Next Meeting & Closing Remarks	All
