

CALL FOR PAPERS
IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing
Special Issue on
“IEEE 2018 International Geoscience and Remote Sensing Symposium (IGARSS 2018)”

The IEEE 2018 International Geoscience and Remote Sensing Symposium (IGARSS 2018) is being held in Valencia, Spain, on July 22-27, 2018. This is the premier symposium of the IEEE Geoscience and Remote Sensing Society (GRSS). IGARSS is a major scientific and technical event in remote sensing.

As tradition, a special issue of the IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing (J-STARS) is planned in conjunction with IGARSS 2018.

Papers submitted to J-STARS should NOT be the IGARSS conference paper. A 2 to 3 times longer paper is typically expected, with a more detailed presentation of the work, and possibly to include additional data sets and comparisons in an enhanced experimental section.

In the cover letter, please provide the corresponding paper number of IGARSS 2018. If this information is not provided, the paper will be considered as a regular submission.

Format

All submissions will be peer reviewed according to the IEEE Geoscience and Remote Sensing Society guidelines. Submitted articles should not have been published or be under review elsewhere. Submit your manuscript on <http://mc.manuscriptcentral.com/jstars>, using the Manuscript Central interface and select the “IGARSS2018” special issue manuscript type. Prospective authors should consult the site <http://ieeexplore.ieee.org/stamp/stamp.jsp?tp=&arnumber=7416303> for guidelines and information on paper submission. All submissions must be formatted using the IEEE standard format (double column, single spaced). For a template in this format please see http://www.ieee.org/publications_standards/publications/authors/author_templates.html. Please note that IEEE J-STARS applies a mandatory page over length charge of \$200 per page (beginning with page 7 and beyond).
