Web Conferencing Options and Guidelines for IEEE Local Meetings During COVID-19 outbreak

Overview

This IEEE volunteer tools (vtools) site provides information on a wide range of tools developed by volunteers for IEEE members and IEEE volunteers. The toolbox simplifies organizational efforts and administration by offering web-based software in order to reduce time spent on managing local activities and to assist in member development.

Select the [TOOLS](#) tab in the navigation bar for up-to-date information on available tools.

IEEE Entity Web Hosting

<https://site.ieee.org>
ewh-webmaster@ieee.org

There are two types of hosting that we offer: WordPress Multisite and vTools WebInABox. Both type of hosting can consume feeds (RSS, iCal):

- ▶ vTools Events Feed
 - Events created at <https://events.vtools.ieee.org/> will populate them
- ▶ vTools Officer Feed
 - Officers reported to IEEE at <https://officers.vtools.ieee.org> will populate them.
- ▶ vTools Other Units feed (e.g., links to Chapters and Affinity Groups)
 - URLs to OU websites reported to IEEE at <https://officers.vtools.ieee.org> will populate them.

WordPress

Open-source Content Management System

WordPress

Learn more at <https://wordpress.org/>

Features:

- ▶ Intuitive interface
- ▶ Lots of great resources that you can use to learn how to create and manage your websites.
- ▶ Media manager for managing pictures, videos, documents, etc. No need to use FTP clients to transfer files to the server.
- ▶ IEEE Theme with adherence to the [IEEE Style Guide](#).
- ▶ Easy form creation and management.

Smush: All images [Bulk Select](#)

The media library displays a grid of 11 image thumbnails. The first row contains five items: a blue and white abstract image, a portrait of a woman with dark hair, a portrait of a man with a beard and glasses wearing a headband, a portrait of a woman with blonde hair, and a portrait of a man with a beard. The second row contains six items: a portrait of a man with glasses, a portrait of a woman with dark hair, a woman in a business meeting, a blue abstract image with a grid pattern, and a group of three people looking at a document.

vTools WebInABox

Automated simple website service

vTools WebInABox

<https://webinabox.vtools.ieee.org/>

Features:

- Use a wizard to create a simple and automated website. This is ideal for IEEE Organizational Units that do not have the resource to build and maintain a WordPress site.
- The Calendar, Officer Roster and Other Units Pages are updated automatically by vTools Events and vTools Officer reporting.
- Files stored in WebInABox cannot be linked to directly. Can only link to the Files page.
