1 Scope

1.1 Identification

This document is a MANUAL for IGARSS Proposing Teams and Local Organizing Committees.

1.2 Purpose

The purpose of this document is to provide GRSS specific guidelines to teams that are going to host an International Geoscience and Remote Sensing Symposium (IGARSS), in addition to the general guidelines provided in the IEEE web site:

https://www.ieee.org/conferences/organizers/organizers-index.html

This document is considered to be a living document based on experience of previous organizers, conference management personnel, and the GRSS Conference Advisory Committee. The Conference Advisory Committee of the GRSS Administrative Committee (AdCom) would like this document to be revised after every IGARSS, and, during the workup to a conference.

1.3 Introduction

The first IGARSS was held in 1981. A historical table of particulars from each of the conferences is provided in Appendix B. For many years, the conference location alternated between North America and the rest of the world. In 2009 the GRSS AdCom decided to adopt a three-year rotation between North America, Europe/Africa, and Pacific/Asia. Table 1 shows the location of IGARSS from 2019 to 2023.

Table 1. Upcoming IGARSS location cycle.

Year	Region	Location
2019	Asia/Pacific	Yokohama, Japan
2020	North/South America	Hawaii, USA
2021	Europe/Middle East/Africa	Brussels, Belgium
2022	Asia/Pacific	Kuala Lumpur, Malaysia
2023	North/South America	Pasadena, California, USA

The rotation cycle set up is at the discretion of the AdCom, and could be changed in the future through formal review and deliberation processes.

The rest of this document describes the major aspects of proposing, planning and hosting an IGARSS conference.

2 Proposing an IGARSS

2.1 Context

It is important to understand the delegation of an IGARSS, which is the flagship event of the Society, and hence, a strong focus of AdCom, the governing body of the Society. Some activities are governed strictly, whereas others are controlled either by AdCom or IEEE Headquarters. The latter, in particular, has to conform to financial audit, and must thus pass on the requirements for financial control to conferences that involve significant sums of money and risk.

GRSS has adopted a two-stage process for the delegation of an IGARSS: (i) open solicitation and review of pre-proposals, and (ii) down selection, invitation to submit, and final review of full conference proposals. A general call for pre-proposals is made approximately 5 years prior to the conference date. A team wishing to bid for an IGARSS must submit a pre-proposal, and if short listed, a full proposal. Requirements for pre-Proposal and full proposal are defined in Section 2.3 and Section 2.4.

2.2 Important Functions in the Running of an IGARSS

During pre-Proposal phase, the proposing team is expected to identify core members of the Local Organizing Committee (LOC), including the General Chair, Technical Program Committee Chair(s), and Finance Chair. Following is an overview of roles and responsibilities of the two conference operating entities: LOC and Professional Congress Organizer (PCO).

2.2.1 Local Organizing Committee (LOC) Responsibilities

With AdCom's support and oversight, the LOC is in charge of organizing and managing the conference. The LOC is expected to provide the local flavor of the conference, and, more importantly, links to the local scientific community (research and training), industry and government. These links are for mutual benefit i.e. the GRSS members meet new colleagues, and equally, the local community has the opportunity to interact with a global community of Remote Sensing experts. This is especially important to the young scientists, the future members of GRSS. Access to the local community is an important source of GRSS recruitment. The LOC also provides a large body of volunteer effort, required to run something as large and complex as an IGARSS. The LOC needs to anticipate and prepare for the high level of effort required to run an IGARSS. To ensure continuity of some programs and well-established aspects of IGARSS, GRSS AdCom (working with the LOC) will be responsible for certain conference functions.

Since 2008 the GRSS Conference Advisory Committee has been conducting attendee survey during IGARSS. These surveys are a useful source for feedbacks and comments from attendees and conference statistics. Contact the Chair of the Committee for updated information.

2.2.2 Conference Management Function

GRSS AdCom appoints a Professional Congress Organizer (PCO), who is generally responsible for the following items:

- 1. Advising the LOC on key events and their scheduling;
- 2. Receiving delegate registrations and payments;
- 3. Financial control via IEEE;
- 4. Technical contributions (oral and poster papers) management system and generation of conference proceedings;

At the time of writing this document the name of the PCO is Conference Management Services Inc. (CMS). The contact information is provided in Appendix A. However, the LOC is free to propose its own approach to these functions in order to meet local requirements and

needs. An important consideration is that the system used to receive technical contributions (abstracts first and full papers later), and much of the operation of the Technical Program Committee (TPC), is embedded into the PCO conference management software system. The paper submission processing system is also linked to the registration process (including registration fee collection). Note that conference registration fees can be collected locally in the country where IGARSS takes place, provided the LOC adheres to IEEE rules and requirements.

2.3 Pre-Proposal to Host an IGARSS

The pre-proposal is a written document of twenty pages or less, and is typically prepared by the proposing LOC with minimal outside assistance and should not entail major expense in effort and cost in its production¹. The pre-proposal must address the following items, and will be evaluated based on the following criteria:

- Organizing team capabilities, involvement with the Society, experience with IGARSS
 and/or other conferences. The leadership of IGARSS is very important and must be
 comprised of experienced and dedicated volunteers.
- Host city including easy domestic and international accessibility, security, cost, appeal of local attractions/climate including the season of the event.
- **Venue** suitability, cost, appeal, accessibility for differently-abled attendees or attendees with special needs.
- **Lodging** Availability of adequate, suitable **hotels** for participants. Including:
 - Host hotel facilities that can accommodate the meeting room requirements (in case the conference venue is a hotel) and sleeping room needs must be booked easily at least three years in advance.
 - Nearby overflow hotels for additional meeting space and to provide alternative, generally less expensive lodging for attendees.

_

¹ Often the proposed venue city has a convention centre or similar and will provide a wide range of assistance to prepare the material needed for the proposal (e.g. statistical data for transport, hotels) and might even help the funding of proposal production, and supply supporting pamphlets.

- **Dining** Easy access to multiple, cost-effective dining opportunities.
- Other relevant factors, as determined by the AdCom, such as:
 - Local industry or university support
 - Support and involvement of the local IEEE Organizational Unit
 - Concurrent events which may impact the conference
- Budget Preliminary conference budget, which include 10% contingency and 10% surplus, for 1600–2000 attendees that highlights the value propositions, potential risks and mitigation strategies.

2.3.1 Pre-Proposal Format

The following information is required for the pre-Proposal, which should not exceed 20 pages, minimum 11-point font, including appendices. There is no fixed template or format.

- **1. Proposed Year**: The year of the conference execution.
- **2. Proposed Dates**: IGARSS is typically scheduled in the period from late June to early August due to weather and convenience for Northern hemisphere academic participants. This is not a requirement, but inevitable tradeoffs associated with other dates should be considered carefully, if alternatives are proposed. National and religious holidays and dates of other IEEE conferences which involve remote sensing or signal processing should be avoided so as to maximize attendance.
- 3. Name of Proposed City, Country, Venue: Complete Affiliation of the Venue
- **4. Proposing Team Names and Affiliations:** The General Chair(s) must be a member(s) of the IEEE GRSS Society; the Chair has considerable latitude in the organization of the Committee. The **General Chair person(s)**, the **Technical Program Chair**, and the **Finance Chair** should be identified at the time of submission of the bid. Members of the LOC need not to be located in the same city as IGARSS. They may even be from different countries, as the electronic age, coupled with the use of a central conference management company, now makes it possible to plan for conferences in absentia.

The General Chair should take care in selection of the members of the Local Organizing Committee for the conference. Each volunteer should be aware of any potential conflict of

interest in voting or making decisions and notify the General Chair if there is any such potential conflict of interest. Please indicate whether any of the organizing committee members have conference or meeting planning experience, particularly with IEEE conferences.

The final LOC will include:

- General (co-)chair(s)
- Technical program (co-)chair(s)
- Finance chair
- Local arrangements chair
- Publicity chair
- Publication chair
- Exhibits chair
- Other Team Members

2.3.2 Justification for the Site Selection:

- Statement outlining the advantages of conducting IGARSS in the specific location.
 Important issues include suitability of space, access by delegates, cost, and appeal to delegates.
- Description of the proposed conference center or hotel venue. Considerations should include:
 - IGARSS attendance is now typically between 1400 and 2700. Proposed venues
 must be able to handle a minimum of 12 parallel sessions. A suitable range of
 room sizes should be available for oral sessions (min seating of 100 to max
 seating of 350).
 - An appropriate venue must be proposed for the opening/plenary session, which may be attended by about 1200 delegates. The venue must meet the session presentation staging and audio/visual requirements.
 - Easy access to appropriate space for the poster sessions (~350 posters per day)
 and the exhibit area (30-40 booths) is also required.

- Appropriate facilities for tutorials (~8 rooms of ~20-50 people) on Sunday prior to the conference.
- Wireless Internet access and charging stations
- Availability of childcare and emergency medical care facilities
- Rooms for dinners (~100 people)
- Accessible rooms for supporting staff and meetings which may occur during the conference.
- Off-site hotel (if the proposed venue is not a hotel) that is suitable for the AdCom
 meeting the prior weekend and various committee meetings (possibly lunch or dinner
 meetings) during the week. If the venue is a hotel, committee meetings lunches will
 be held at the conference venue due to schedule restrictions.
 - The venue must be affordable to participants. Current rates must be provided for use of the proposed conference site. Site negotiations will be conducted by the professional staff of the GRSS conference management company after the venue is selected. Note that IEEE has a generic standard hotel template and specific hotel chain standard templates for contracts:

http://www.ieee.org/conferences events/conferences/organizers/contracts. html.

There are National Account Representatives for many of the international chains, such as Hilton, Hyatt and Marriott, who are responsible for monitoring all IEEE business for the hotel chains. They can be valuable partners in the contract process.

- The site being proposed must be conveniently accessible from hotels offering a broad range of rates. Affordable accommodation for students is also highly recommended. Provide current rates of properties around the conference site.
- Information pertinent to travel to the venue. Is the proposed site near major airports?
 Is the airport located within a reasonable distance from the venue? Provide information on the airport relative to the venue and current airfare costs from major

cities in Asia, Europe, North America and South America. Also provide information on local transportation.

- Information on unique aspects of this location for attendees. What are the technical advantages to this location? What are the cultural and leisure activities available?
- Statement of the professional interest in the local area related to the broad field of geosciences and remote sensing.
- Preliminary budget analysis including the amount of potential and/or confirmed support from corporate/government/organizational, potential sponsorships and grants, and other supports for conference venue and activities.
- Indication of any other technical communities that might attend and enrich the conference with their participation. A joint conference with another society can also be proposed. Information relative to this should be provided in the proposal.
- Additional descriptive and visual materials which provide information on the venue is
 welcome. Note that development and shipping of extensive packets of material could
 be time consuming to prepare, costly to ship, and generally not useful in the
 preliminary proposal review. Such material can be incorporated in the presentation of
 the finalists in July, if the AdCom decides to make the final selection at that time.
 Inclusion of a URL that provides visual information on the venue may be effective, but
 is not required.

2.3.3 Pre-Proposal Submission and Process Timeline

The pre-proposal must be submitted electronically in PDF format to GRSS Vice-President of Meetings & Symposia (VP M&S) by January 31st of the year, four years prior to the event. Current contact information for GRSS VP M&S is available through the GRSS AdCom web page (http://www.grss-ieee.org/community/adcom/). The pre-proposal will then be distributed to the AdCom for consideration at their spring meeting, usually held in early March. If there are more than two pre-proposals, the AdCom will down-select to two preferred options. The selected team(s) will then be invited to prepare a full proposal and a presentation to the AdCom at their summer meeting, which is held the weekend prior to IGARSS conference.

2.4 Full Proposal to Host an IGARSS

The full proposal design and format are at the discretion of the proposing teams, although it should be only sufficient in length to make the case. It should contain the same information as the pre-proposal, but expanded and updated with better estimates of the budget, the full LOC, and additional details. The written documents are often prepared with the help of local convention bureau and may contain supporting letters from local officials. It is highly recommended that the team review past IGARSS proposals, which can be requested from GRSS VP M&S, during the proposal preparation. Past budgets are particularly useful, bearing in mind the differing cost structures in different parts of the world.

2.4.1 Full Proposal Submission and Presentation

The full proposal must be submitted electronically in PDF format to the VP M&S at least 30 days before the summer AdCom meeting in July of the year, four years prior to the event. Note that the summer (July) AdCom meeting is held the weekend prior to IGARSS conference. Teams who are invited to submit full proposals must provide a short (15 minutes) presentation during the summer AdCom meeting. The presentation file shall be submitted to the GRSS VP M&S at least one week before the scheduled presentation. The team also needs to provide printed copy (about 20 copies) of the full proposal to the AdCom (on site) immediately before the presentation.

3 Organizing and Running an IGARSS

3.1 Background

The proposing team/LOC needs to commence IGARSS planning/preparation activities as soon as the team is delegated to host the conference. The LOC must work with GRSS VP M&S in initiating the conference, which include completion of a Memorandum of Understanding (MOU) between GRSS and the hosting institution, IEEE conference registration, hiring of a PCO (and, for outside USA, a local PCO), review and approval of conference budget, and conference banking account set up. IEEE has comprehensive

guidelines and documents for planning and organizing a conference which are accessible through the IEEE Conference Organizer Portal website

(https://www.ieee.org/conferences/organizers/organizers-index.html). IEEE provides an overview of conference management activities with a 24-month pre-conference timeline. However, the GRSS custom is a much longer interaction between the IGARSS LOC and the AdCom, which is detailed in the IGARSS Conference Timeline below.

IEEE documentation also indicates the contractual issues that arise in running a conference. Cash advances are typically needed to run a conference, and the IEEE HQ needs assurance that this funding will be carefully managed, and repaid to IEEE after the conference. Conferences are expected to have at least a 10% surplus, which would enable GRSS to expand its services and activities. A 10% contingency must also be included in the budget. To handle cash flow for each conference, IEEE sets up a subset of its bank account, where cash flows in and out. Please carefully review the IEEE Conference Organizer Toolkit website for comprehensive details on how the process is carried out:

https://www.ieee.org/conferences/organizers/conference-organizer-toolkit.html

3.2 IGARSS Conference Timeline and Reporting Schedule

To ensure successful planning and running of IGARSS, GRSS has over the years adapted and fine-tuned the suggested IEEE conference timeline. The IGARSS conference timeline and guidelines document is provided in Appendix C. The list of generic deadlines for IGARSS is shown in Appendix D. Summary of IGARSS proposal and reporting schedule is given in the following table, in which **Y** denotes the year of the conference. Note that there are three AdCom meetings per annum, generally in March, July (at IGARSS), and November (identified as 1, 2 and 3 in the table). Thus, Meeting Y-3.1 is the first² AdCom meeting, three years before the IGARSS. IGARSS is traditionally held during the long academic breaks of the northern hemisphere, from June to July.

_

² The Spring AdCom (and Technical Program Committee meeting for the upcoming IGARSS) is usually held the first weekend of March. The second is the Friday through to Saturday before the IGARSS of that year, and the final (Fall) meeting is in the weekend after November 1st of that year.

Table 1: Summary of IGARSS proposal and reporting steps

When	Activity
Y-4.1	Pre-Proposal: if short-listed, start preparing full proposal.
Y-4.2	Proposal: AdCom decides between short-listed teams.
Y-4.3	General Chair(s) provide short status report to AdCom on long lead arrangements; attendance at meeting not required unless asked by VP M&S
Y-3.1	Technical Chair(s) to attend TPC meeting, and present update on conference arrangements to the AdCom.
Y-3.2	General Chair(s) attends summer AdCom, makes progress report.
Y-3.3	General Chair(s) provide short status report to AdCom on long lead arrangements; attendance at meeting not required unless asked by VP M&S
Y-2.1	Technical Chair(s) to attend TPC meeting. Attend AdCom meeting and give update on arrangements.
Y-2.2	General Chair(s) attends summer AdCom, makes progress report.
Y-2.3	General Chair(s) presents status report to AdCom
Y-1.1	Technical Chair(s) to attend TPC meeting. Attend AdCom meeting and give update on arrangements.
Y-1.2	General Chair attends summer AdCom, makes progress report, key elements of budget, requests for advances for AdCom approval.
Y-1.3	General Chair attends Fall AdCom, makes progress report, key elements of budget
Y-0.1	Technical Chair(s) run the TPC for their conference, technical program is established, commensurate with the conference venue space allocation. General chair attends AdCom and presents key elements of budget.
Y-0.2	LOC runs the IGARSS. General Chair updates AdCom.
Y-0.3	After the event, core LOC members attend and present final figures of the Symposium to the AdCom

3.3 Local Organizing Committee – Roles and Responsibilities

Running an IGARSS is a complex endeavor and requires a dedicated team that function in a well-coordinated manner. IGARSS planning and management activities cover six major areas: Venues, Finance, Technical Programs, Social Programs, Outreach, and Exhibits. A high level diagram of these activities for IGARSS 2017 is show in Appendix E. General conference organizer roles and responsibilities are described in the IEEE Conference Organizer Portal website: https://www.ieee.org/conferences/organizers/roles-responsibilities.html

It is strongly recommended that the LOC contracts and involves a PCO (and, for outside USA, a local PCO) as early as possible in planning and running the conference. More detailed PCO's roles and responsibilities are listed in Appendix F. General roles and responsibilities of IGARSS General Chair(s) and Technical Program Committee Chair(s) are highlighted briefly below.

3.3.1 General Chair

The General Chair may select a Co-Chair, or there may be two General Co-Chairs with shared responsibilities. The General Chair has overall responsibility for the conference. They have the responsibility of selecting and overseeing all other LOC positions. After a site has been selected, one of the first tasks for the General Chair(s) is to sign the Memorandum of Understanding between the LOC and IEEE GRSS in the person of the President. This document will define the financial responsibility for the conference and any arrangements for sharing any possible surplus. An example MOU from the most recent IGARSS is a good template for this document.

3.3.2 Technical Program Committee (TPC) Chair(s)

The Technical Program Committee Chair (in some cases co-chairs) is a very important position as he/she is responsible for the entire Technical Program, albeit that he/she is assisted by a Technical Program Committee (TPC) in which the core memberships evolve slowly with time. The TPC is a reservoir of good conference practices. If possible, past Technical Program Committee Chair(s) can be asked to participate, or provide guidance to the present TPC Chair(s). It is strongly advised that TPC Chair(s) attends at least one of the TPC meetings for IGARSS that are held prior to the proposed conference year.

3.4 Technical Program Committee

Members of the Technical Program Committee (TPC) are selected and invited to contribute to the IGARSS program by the GRSS Conference Advisory Committee in cooperation with the Technical Program Chair(s). This is done in September/October prior to the Technical

Committee Meeting in March. The invitation and selection are done for every IGARSS. The Technical Program Committee (consists of approximately 60 members) is responsible for the IGARSS oral and poster session organization. The team shall consist of AdCom members, Technical Committee chairs/members, and experienced experts. Coordination between related general themes is a responsibility of the Technical Program Committee Chair(s).

3.5 Technical Program Development

3.5.1 General and Special Themes

IGARSS technical program is traditionally organized around themes that carry on from year to year. These are not mandatory, but indicate current active areas of research, and hence, areas likely to attract paper submissions. Two types of themes are distinguished: the general themes and the special themes. The general theme topics are defined by the Conference Advisory Committee and are revised every year. The special themes are organized by the LOC and should add some local flavor to the conference IGARSS themes.

The general theme topics are provided to the LOC after the March AdCom meeting one year prior to the conference. The general IGARSS technical themes for 2019 are listed in Appendix G.

3.5.2 Invited Oral Sessions

It is a tradition to solicit proposals from the general community for themed invited-sessions. The number approved must be limited to allow a good balance between invited and general submission sessions. Recent history has put the balance at about a maximum of 40/60 between invited and general submission oral sessions, although surveys indicate that the IGARSS attendees would like to see this ratio decrease.

It is important to note that one obligation of the GRSS Technical Committees is to host one invited oral session for each topic at each IGARSS, so the Technical Program Committee Chair(s) needs to be aware of these proposals and approve them as long as they are adequately developed and met the IGARSS technical program standard. There may be up to 10 invited session hosted by the GRSS Technical Committees. Updated information of current

GRSS Technical Committees is available on IEEE GRSS Website (http://www.grss-ieee.org/community/technical-committees/).

3.5.3 Receiving, Reviewing and Allocating Papers

The reception of the papers and the review process is handled by the Professional Congress Organizer (PCO, i.e. conference management company), but the design of the five-day technical program is the sole responsibility of the TPC Chair(s) in conjunction with the TPC. The paper review process is facilitated by an online conference paper and technical program management system. However, the TPC Chair(s) must vet and update the database of reviewers, and might wish to expand or contract it. It is important to ensure that sufficient reviewers are available for each theme and commensurate with the expected number of papers in the theme.

The TPC Chair(s), in conjunction with their colleagues on the LOC, must decide on the number of parallel oral and poster sessions. Over the last few years IGARSS typically had 12 parallel oral sessions and 18 parallel poster sessions. The number of sessions may be adjusted, after close consultations with AdCom, based on unique circumstances of the conference. The exact number is a trade-off between what the venue can offer in terms of rooms of adequate size, and the response to the call for papers. A rejection rate for papers of 20% to 30% is common, but not mandatory. Another consideration is that a conference that is too large could make it impersonal, but a conference that is too small might not be financially viable.

3.5.4 Tutorials and Workshops

Tutorials covering technical topics are advanced courses, allowing GRSS practitioners to learn about new techniques in the field of Geoscience and Remote Sensing, or to advance in the fields in which they work. Working with the GRSS Director of Education, the LOC of the IGARSS (specifically TPC Chair(s) and/or Tutorials Chair(s)) establishes and manages the technical tutorial and workshop program. Technical Tutorials/Workshops are restricted to half-day or full day events and held on the Sunday prior to IGARSS. The document describing the

operation of technical tutorial and workshop program can be obtained from the GRSS Director of Education.

Industry oriented tutorials and workshops are organized as parts of the Technology, Industry, and Education (TIE) Forum. Details on the TIE Forum are provided in Section 7.

3.5.5 Technical Session Webcasting

To broaden technical and societal impacts, IGARSS typically offers live streaming/webcasting of selected sessions which are accessible online for the general public. Information about the live streamed sessions is publicized/announced on the IGARSS website and other social media platforms. The LOC, in collaboration with GRSS AdCom and supported by the PCO, is responsible for organizing and managing the webcast program and activities.

3.6 IGARSS Side Meetings

There are several GRSS activities (side meetings, some of which are funded directly by GRSS) held during the IGARSS week that need to be included in the conference planning:

- 1. GRSS Technical Committee Meetings
- 2. GRSS Technical Committee Chairs Luncheon
- 3. GRSS Technical Committee Luncheon
- 4. GRSS Chapter Chair Luncheon or Dinner
- 5. Student Prize Committee Luncheon
- 6. GRSS Editors Luncheon
- 7. Chapter Chairs Meeting

The LOC needs to coordinate and manage these activities in collaboration with the respective GRSS VPs and Directors.

3.7 Social Events and Attendee Support Services

3.7.1 Evening Social Events

IGARSS facilitates social interaction and networking opportunities for participants through several social events during the conference. Followings are the main social events taking place during IGARSS.

- 1. Welcome reception: Free for registered participants and takes place on the Sunday evening prior to IGARSS
- 2. Soccer Game (and/or other fun and competitive group activities): For registered participants (with minimum registration cost) and held on Wednesday evening during the conference.
- 3. Award Banquet: For registered participants and scheduled on Thursday evening.

 Additional social events that highlight local culture and experience are strongly encouraged.

 These events can be scheduled in the remaining evenings of the conference.

3.7.2 Child Care Service

GRSS is committed to culture of inclusiveness and to broaden IGARSS participations. To that end, GRSS seeks to minimize barriers for a full and rewarding experience for all IGARSS participants. Child care service is one of the attendee support services that was highly valued in past IGARSS. IGARSS Child care services can be arranged by:

- 1. Providing a list of child care providers in the location of the conference; the list is generally provided by either the local tourism board or via the hotel itself.
- Contracting with one centralized childcare service at the event location. The
 contract would need IEEE legal and IEEE's office of risk management's engagement
 to review and provide specific commentary as to the terms of service and in how
 that service will be administered.

Note that due to potential liability and legal issues, the LOC must work with GRSS VP M&S, IEEE Legal, and IEEE Office of Risk Management in planning and setting up child care services.

3.7.3 Social Program for Accompanying Persons

The LOC is also encouraged to offer social programs/activities for accompanying persons during IGARSS. These programs can be established in collaboration with the local convention and visitor bureau, tour operators, and/or local establishments. Example programs include local culture and arts, daily-tours, wellness activities, and local cuisine experiences.

3.8 Technology, Industry, and Education (TIE) Forum

3.8.1 General Information

The TIE Forum is intended as a conference track that runs in parallel to the technical tracks of IGARSS. It hosts a series of talks and activities designed to extend the reach of the IGARSS conference beyond its traditionally academic audience and to promote networking among academic and non-academic conference participants. IGARSS provides complimentary one-day registrations to invited TIE speakers who do not have papers at the conference.

The LOC of IGARSS will appoint a TIE Forum Chair(s) to organize and run the TIE Forum. S/he will coordinate with various AdCom working group members to plan the agenda, flesh out operational details (logistics), enlist speakers, and find moderators. These include, but are not limited to, the Director of Space Agencies Relations, Director of Education, Director of Global Activities, Director of Industry Relations, and the IDEA (Inspire, Develop Empower, and

Advance) and YPs (Young Professionals) committee chairs.

The TIE Forum and regular conference tracks need to be equally advertised and publicized via inclusion in the conference schedule and booklet, email/social media outreach, and inclusion in the IGARSS app. In addition, core TIE Forum activities should be advertised onsite with poster boards. These should be approximately A2-sized poster boards displayed in high traffic areas. An example from IGARSS 2018 is shown in the image on the right.

TIE Forum activities vary by year but generally include:

- 1. Industry forum
- 2. Industry oriented tutorials
- 3. Women in STEM forum
- 4. Women in GRSS (WinGRSS) luncheon
- 5. Coding workshop
- 6. Young Professional mixer
- 7. Author education: How to publish IEEE papers
- 8. Remote Sensing Agency session

Example of the TIE activity poster advertisement

Additional special events, roundtables, and forums can be organized if time permitting. Prior events included:

- 1. Industry luncheon
- 2. Author education: NASA ROSES proposal writing
- 3. GRSS from an Industry Perspective: State of the art, potential, and challenges
- 4. Navigating Technology Transition
- Special topics on Earth Observation, Sustainable Goals, United Nations 2030 Program,
 GEO and Global Awareness

The TIE track activities may evolve over time based on the need of the GRSS membership. Changes to the activities shall be discussed with and approved by the AdCom working groups.

3.8.2 Planning the TIE Forum

Planning of the TIE events commence 6-12 months before IGARSS. It is important to have non-GRSS speakers in the TIE events as it broadens the participation of companies, government agencies, etc. who traditionally do not attend IGARSS, and it also amplifies the visibility of IGARSS and GRSS. The LOC needs to contact and work with AdCom members (working group) who traditionally organize these non-technical events. The initial engagement should be made at IGARSS or at the AdCom meeting one year prior to the conference. The LOC and AdCom working group are strongly encouraged to schedule a break-out session during the November AdCom Meeting for planning the TIE Forum logistics for IGARSS of the following year. Following is a typical planning timeline for some of the activities in TIE Forum.

January/March:

- The AdCom working groups will contact speakers for the panels and the coding workshop
- 2. The LOC will scout for locations where the YP mixer event can be organized (usually close to the conference venue), organize buses to shuttle participants between the mixer and the conference venue, and provide a budget estimate for the event.

March/April:

Speakers and lead of the coding workshop are confirmed. The GRSS YP Program Chair will search for industrial sponsorships to cover most of the cost of the event. Fast-growing companies can use the event to advertise and recruit highly motivated YPs working in the remote sensing area. The lowest sponsorship level is usually \$6K. An "IEEE 50% Rule" proposal to GRSS will be submitted to cover the cost of the event in case the sponsorship funding is lower than projected.

April/May:

This is the timeframe when the majority of attendees register to attend IGARSS. The LOC publicity chair, the GRSS social media ambassadors, and the GRSS webmaster will publicize the TIE events heavily through all channels. Emails should be sent to the YP member list to encourage attendance at the events.

May/July:

All organizational details of the events should be finalized. For TIE Forum events with limited capacities (such as YP Mixer and WinGRSS Luncheon), usually about 10% of the capacity is reserved for GRSS invitees. IGARSS PCO (CMS) needs to be notified of the number of event tickets to be held for GRSS. If the event is externally sponsored, an additional 10% of the tickets are held for the sponsoring company. Selected AdCom members (such as the President, Executive Vice President, Technical Committee chairs, etc.) are invited at the discretion of the respective TIE Forum event Chair. If tickets are not sold out, the TIE Forum events should be advertised at the plenary presentation and at the GRSS booth at IGARSS.

During IGARSS:

IGARSS app, Twitter, and Facebook reminders should be pushed in the morning of the event and 10 minutes before each TIE activity.

3.9 GRSS Summer School (GR4S)

A GRSS Summer School (GR4S) is organized and hosted by the IGARSS LOC during the week prior to IGARSS. The primary goals of the GR4S are to provide a pre-conference educational

opportunity for students, retain student members of GRSS, and recruit future professional members to GRSS. Key aspects of GR4S are listed below.

- The GR4S is typically a week-long educational event with undergraduate and/or graduate students as the primary target audience.
- The GR4S is promoted via the IGARSS promotional venues, including the IGARSS
 website where the IGARSS registration page is located, and all promotional materials
 clearly identify GRSS as a sponsoring organization.
- The LOC designates an individual who serves as the Chair for the GR4S. The GR4S Chair works with and has a monthly planning teleconference with the GRSS Director of Education (who leads the GR4S activities).
- The GR4S is held at a location near the IGARSS venue. Typically, the venue is a nearby university.
- The GR4S is organized as a budget neutral event (i.e. no net profit or loss). The primary goal is to provide a high-quality and low-cost educational experience for students.
- Registration fees for the GR4S are kept as low as possible (typically no more than USD\$100). The fees can be lower for student than for non-student participants.
- Low cost housing options are provided to participants. Typically, university student housing is arranged by the LOC.
- Low-cost local transportation options are made available to the attendees.
- A GR4S typically has 30-50 attendees from multiple countries.
- The GR4S is widely advertised, for example via GRSS social media (FB, Twitter, LinkedIn), emails to GRSS chapters, emails to student registrants of IGARSS, and within IGARSS promotional materials.
- GR4S emphasizes on topic(s) of interest to students. For example, a GR4S can have an
 emphasis on emerging technologies, such as small-satellites, drones, or deep learning,
 or on particular applications, such as precision agriculture, disaster response, etc. The
 level of the materials should be aimed at students who are not yet experts in the field.

- Often, a GR4S is a mixture of class-room style lectures and hands-on activities. The lectures are typically given by a mixture of local experts and speakers who are active within GRSS who are attending IGARSS.
- Student participants of the GR4S are provided opportunities to serve as volunteers at IGARSS with the benefit of reduced conference registration fee.

More detailed information about GR4S is available in the GR4S Handbook, which can be requested from GRSS Director of Education.

3.10 Budget and Financial Responsibilities

IEEE/GRSS is the sole financial sponsor of IGARSS. IGARSS General Chair and Finance Chair have full responsibility of the conference finances and are responsible for managing the conference budget. The LOC must be cognizant of potential risks and challenges, including potential conflict of interest, in preparing and managing the conference budget. Risk mitigation strategies must be considered early on in the conference planning processes. After the conference, the Finance Chair and the PCO are responsible for preparing and submitting all materials for post conference financial auditing (typically two months after the conference). Conference financial auditing will be conducted by IEEE or by a certified accounting firm. To comply with auditing requirements and also to ease the preparation of audit materials, the use of IEEE budget and reporting worksheet is strongly recommended. Excel file of the IEEE Budget Worksheet is available from GRSS VP of Meetings and Symposia. There are many IEEE requirements and procedures regarding conference financial management. The LOC (specifically the Finance Chair and the General Chair) should consult and work closely with the GRSS Chief Financial Officer (CFO) on operational and financial matters.

Followings are major budget categories of an IGARSS budget:

Revenues:

- o Conference registration fees
- Tutorial fees
- o Exhibits, sponsorships, grants and donations

Expenses:

- Conference venues and local arrangements
- Food and beverages
- Conference management/services and administration

Often the conference will need a loan (cash advance) from GRSS in order to secure the venue and other long lead items prior to receipt of any registration revenue. Request for GRSS advance loan should be submitted in writing to GRSS CFO. An example detailed budget is provided in Appendix H.

3.11 A Typical IGARSS Week

The conference has evolved to a schedule that has been followed by IGARSSs over the last few years. Events start the Friday prior to the week of IGARSS with the AdCom meeting and conclude with the closing ceremony on Friday afternoon. Note that for AdCom Meeting, the agenda and venue requirements are set by the AdCom, through its administrator, but the venue will be provided by the conference contractor, as part of the IGARSS. A typical schedule for the days of the IGARSS week is shown in the following table.

Day of the Week	Items
Friday	AdCom meeting 8 am to 6 pm; President's reception in evening
Saturday	AdCom meeting 8 am to 5 pm; AdCom dinner in evening
Sunday	Tutorials and associated workshops 8 am to 5 pm; Plenary rehearsal, Plenary Speakers lunch, Welcome reception in the evening
Monday	VIP/plenary speakers breakfast; Opening/Plenary Session; VIP Luncheon; Technical (oral & poster) Sessions PM; TIE Forum; evening social event
Tuesday	Technical (oral & poster) sessions AM and PM; WinGRSS Luncheon; Technical Committee and Chapter Chair Meeting; TIE Forum; evening social event
Wednesday	Technical (oral & poster) Sessions AM and PM; TIE Forum; Young Professionals Luncheon; Technical Committee Meeting; soccer game or other group sport event; Technical Committees and Chapter Chairs Dinner
Thursday	Technical Sessions (oral & poster) AM and PM; TIE Forum; Editor's Luncheon; Technical Committee Meeting, Awards Banquet in the evening
Friday	Technical (oral) Sessions AM and PM; Poster session AM; Closing ceremony

There are often a number of additional side meetings that should be accommodated such as workshops related to a specific future or current mission and other spontaneous meetings.

The LOC has the option to move or add events to this nominal schedule, but should do so after consultation with the VP for Meetings and Symposia as attendees have come to expect this type of format. An example "Schedule At-A-Glance" for IGARSS 2017 is provided in Appendix I. The following tables provides the general list of events and locations that the LOC must take care:

Table 2: List of events during IGARSS (to be taken care of by GRSS' management company and AdCom with LOC support)

Friday, MM DD-3	
AdCom Meeting	Host Hotel or Convention Center - TBD
President's Reception	Host Hotel or Convention Center - TBD
Saturday, MM DD-2	
AdCom Meeting	Host Hotel or Convention Center - TBD

Table 3: List of events during IGARSS (to be taken care of by the LOC and PCO)

Sunday, MM DD-1		
Tutorials	CONVENTION CENTER	
Opening Ceremony/Plenary Rehearsal Participant Lunch	TBD	
Opening Ceremony/Plenary Rehearsal	CONVENTION CENTER	
Registration	CONVENTION CENTER	
Welcome Reception	CONVENTION CENTER	
Monday, MM DD		
Registration	CONVENTION CENTER	
Exhibit Hall Opening	CONVENTION CENTER	
VIP/Plenary Breakfast	TBD	
Accompanying Person's Hospitality Suite (TBD)	CONVENTION CENTER	
Opening Ceremonies and Plenary	CONVENTION CENTER	
VIP Lunch	TBD

Closing Ceremony	CONVENTION CENTER

4 Updating this Documentation

This document is maintained by the GRSS Conference Advisory Committee (CAC) with contributions/inputs from IGARSS organizers. This document is generally reviewed and updated annually. Questions and suggestions pertinent to planning and operating of an IGARSS should be referred to the GRSS CAC. Contact information for the current Chair of GRSS CAC is listed below.

Current Chair of GRSS Conference Advisory Committee:

Saibun Tjuatja

Department of Electrical Engineering The University of Texas at Arlington UTA Box 19016 Arlington, Texas 76019-0016, USA Email: tjuatja@uta.edu

5 Summary

This document summarizes the processes in proposing, setting up and running an IGARSS. It begins at the pre-Proposal stage (5-year out), guides the successful bidders through the processes leading up to the IGARSS itself. This long lead-up phase requires considerable interaction with the GRSS AdCom.

Appendix C IGARSS Conference Timeline

			0 at = 0	m m			
Submit the full proposal to host IGARSS	Prepare a preliminary conference budget	Conduct Venue Site Visit	Contact IEEE Section and GRSS local chapters (If applicable) where conference will be held.	Establish the core comference committee	48+ MONTHS		
	Submit conference committee list and initial budget fonecast to GRSS	Contract conference management company	Register the conference with IEEE	Complete the MOU with GRSS	48-42 MONTHS		
Apply for grants for conference support	Begin outreach to educational intitudions, copposations, government and industry for support and patronage	Venues site visit, selection, and contract review	Review tax information to erroure IRS and international compliance VAT and GST	Review IEEE Irrurance coverage and determine if additional coverage is required	ONTHS		
333 according to the conference for including the conference for including the conference of the confe	Apply for loan from GRSS	Venues site visit, Complete the IEEE selection, and compliance contract review training	Establish conference bank account	Submit conference budget with written GRSS a pproval for IEEE headquarter review	42-361		
				Develop communications plan and marketing materials	42-36 MONTHS		
	Submit updated committee list	Meet with the Y-3 (in the same region) IGARS S OC and observe conference operations	Register for Electronic IEEE Copyright Form (eCF)	Submit Conference Publication Form to obtain Letter of Acquisition (LOA)	36-24 1		
			Plan social activiti es and bour program, if applicable	Develop exhibitor prospectus	36-24 MONTHS		
			Coordinate/plan with TCs, GR4S, WKG RSS, TIE, and other AdCom activities	Develop conference website	24-18 MONTHS		
			Set up conference deadlines	Send re quest for proposal (RFP) to exhibit decorators	SHINOV	PRE - CONFERENCE	
		Deve log plenary program and invite speakers	Prepare conference booth at Y-1 IGARSS and order maketing givesways	Establish a Visa process for international attendees and post on the conference web site	SHINOW 51-81	FERENCE	IGA
Activate conference website for paper submissions	Develop/ evaluate paper man agement process	Establish the second Call For Papers (CFP)	Call for Tutorial and Workshop proposals	Promote CFP and exhibit prospectus at Y-1 IGARSS (conference booth)	SHINOW 15–12		RSS TIM
	P lan and execute GR-45	Send out RFPs for ground transportation and finalize contract if applicable	Establish regis tration process and ensure regis tration service is Payment Card industry (POI) compil ant	E stablish the TPC	SHINOW 6-21		ELINE -
		Conduct venues si te visit; confirm space and room assignment/set up	Finalize TIE Forum, WIGRSS program, and confirm resource allocations for YP, TG and AdCom a ctivities	Finalize the Tutorial and workshop Programs	12-9 MONTHS 9-6 MONTHS		IGARSS TIMELINE – GUIDELINES
Finalized space/room ossignment an set-up for technical sessions and social events	Upda te exhibitor space as signments and finalize coffee break (f &B) set up	Order attendee giveaways, speaker gifts, and/or conference shirt	Activate reg istration functions on conference website	Complete paper review process; Finalize technical program; Noffy speakers	6-4 MONTHS		VES
			If applicable, request weekly reports from hotels on room block	Organize and prepare for production of conference publications per Letter of Acquisition (LOA)	4-3 MONTHS		
		Develop and finalize volunteer job functions and onsite needs	Send final program, advertsing, publicity and registration reminders	If applicable, review room block with hotel against attendance and contracts	2 MONTHS		
	Ship final program to conference site	Submit Pre-Conference budget forecast	Preliminary spedifications to conference site; Order sig nage and recognition products	Deadline for early registration	6-4 WEEKS		
			Set-up registation area, exhibit space, information booth, office area	Confirm onsite logistics with venue	2 DAYS		
Hold post-conference wrap up meeting	Monitor F&B and maile adjustment as needed	Monitor dally activities and technical sessions (e.g. session chair, no-show paper, survey, paper competition)	Manitar budget	Orsite registration	CONFERENCE	HOLD	
			Committee members submit final statistics and lessons learned to GRSS	Submitco (Xpl are CD a	1 WEEK		
			Registration dean Process up: process Process refunds, receipts cutstanding bills and balances due	Submit conference proceedings/content (Valore: CD and other media types) per (OA	3 WEEKS	POST - CO	
		Submit post conference forecast	Process outstanding bills		1 MONTH	POST - CONFERENCE	
Auchive conference information and records	Submit final financial report with Certification of Accuracy	Prepare and submit all audit material	Repay loan to GRSS	Close confee noe bank account; submit proof of account closure	3-12 MONTHS		

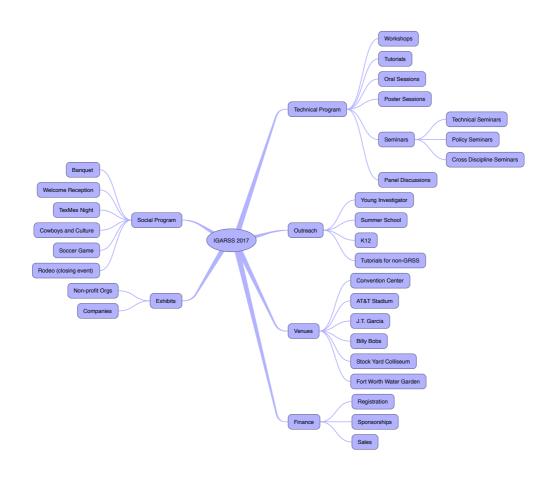

Appendix D Generic IGARSS Deadlines

	Due Date			
Tasks	(Note: 20YY-1 indicates the year before 20YY)			
IGARSS 20YY Website (version 1.0) material send to PCO (CMS)	18 months before the conference			
IGARSS 20YY website on-line	After the banquet of IGARSS 20YY-1			
General invitation to IGARSS 20YY (1st announcement)	After the closing ceremony of IGARSS 20YY-1			
Send calls for invited sessions & tutorial proposals (2nd announcement)				
	1st week of October 20YY-1			
3rd announcement: info updates & due dates reminder	(a few days before proposal deadline)			
Invited Session proposal deadline	1st week of October 20YY-1			
Invited Sessions acceptance notification	1st week of November 20YY-1			
Abstract submissions system on-line	1st week of November 20YY-1			
4th announcement: info update & due dates reminder	1st week of November 20YY-1			
Tutorial Proposal deadline	2nd week of November 20YY-1			
Invitation to join the science committee (reviewers)	1st week of December 20YY-1			
5th announcement: info updates & items due in January of 20YY	1st week of December 20YY-1			
Tutorial Proposal acceptance notification	2nd week of December 20YY-1			
	1st week of January 20YY			
6th announcement: updates & due dates	(a few days before Abstract submission			
	deadline)			
Abstract submission deadline	,			
Travel Support Application deadline	1st week of January 20YY			
Student Paper Competition deadline				
Abstract review system on-line	3rd week of January 20YY			
Notification: abstract reviewers and assignment	3rd week of January 20YY			
Reminder for reviewers: review progress and deadline	4th week of January 20YY			
7th announcement: updated venue and transportation info	1st week of February 20YY			
Notification: invited session organizers	1st week of February 20YY			
Abstract review deadline	2nd week of February 20YY			
TPC: Paper assignment and session organisation	3rd week of February 20YY			
TPC: paper assignment and session formation deadline	4th week of February 20YY			
TPC Meeting - complete Phase-1 technical program	1st week of March 20YY			
TPC: Phase-2 technical program deadline	3rd week of March 20YY			
Abstract status available on-line	4th week of March 20YY			
Registration system on-line				
Notification: Abstract status & registration info				
8th Announcement: Prelim technical program, venue, early registration	1st week of May 20YY			
Described on face and the second of the seco	3rd week of May 20YY			
Reminder for authors: early registration and full paper deadline	(a few days before early registration deadline)			
Early Registration deadline	3rd week of May 20YY			
Full Paper Submission deadline	Sid Week of May 2011			
TPC: Final technical program deadline	2nd week of June 20YY			
9th Announcement: Final tech program, social programs, venues	Four weeks before the conference			
10th Announcement: Updated info, online registration deadline	Three weeks before the conference			
Reminder for authors: presentation & poster info	Two weeks before the conference			
Online registration deadline	One week before the conference			
IGARSS 20YY	Conference Week			

Appendix E IGARSS 2017 Project Diagram

Appendix F Conference Management Contractor's Role and Responsibilities.

Sample split of responsibilities between GRSS' Conference Management Company and the local Professional Congress Organizer (L-PCO) based on programs outside North America. In North America, GRSS Conference Management Company (CMS at the time of writing) usually takes the role of the conference PCO.

Table 5: Summary of tasks and coordination (responsibilities) between the LOC, PCO and L-PCO

Appendix G Current IGARSS General Technical Themes

The general IGARSS themes are defined by the Conference Advisory Committee for each year. It is important that the themes are attractive both in terms of bringing in good, relevant papers, as well as encouraging large numbers of attendees.

Table 6: Summary of general themes of IGARSS

Titles	No.	Themes
Data Analysis Methods	A.1	Electromagnetic Modelling
(Optical, Multispectral, Hyperspectral, SAR)	A.2	SAR Interferometry: Along and Across Track
	A.3	Differential SAR Interferometry
	A.4	SAR Imaging Techniques
	A.5	POL and POLInSAR
	A.6	Bistatic and digital beamforming SAR
	A.7	Tomography and 3D mapping
	A.8	Subsurface Sensing / Ground Penetrating Radar
	A.9	Feature Extraction and Reduction
	A.10	Image Segmentation
	A.11	Object Detection and Recognition
	A.12	Classification and Clustering
	A.13	Estimation and Regression
	A.14	Change Detection and Multi-Temporal Analysis
	A.15	Target Detection and Unmixing
	A.16	Image and Data Fusion
	A.17	Geographic Information Science
Cryosphere Applications	C.1	Snow Cover
	C.2	Ice Sheets and Glaciers
	C.3	Sea Ice
	C.4	Permafrost
Data Management and Education	D.1	Data Management and Systems
	D.2	Remote Sensing Data and Policy Decisions
	D.3	Education and Remote Sensing
Land Applications	L.1	Land Use Applications
	L.2	Land Cover Dynamics
	L.3	Forest and Vegetation: Application and Modelling
	L.4	Forest and Vegetation: Biomass and Carbon Cycle
	L.5	Agriculture
	L.6	Urban and Built Environment
	L.7	Topography, Geology and Geomorphology

	L.8	Soils and Soil Moisture
	L.9	Wetlands
	L.10	Inland Waters
Atmosphere Applications	M.1	Precipitation and Clouds
	M.2	Numerical Weather Prediction and Data Assimilation
	M.3	Atmospheric Sounding
	M.4	Aerosols and Atmospheric Chemistry
Ocean Applications	0.1	Ocean Biology (Color) and Water Quality
	0.2	Ocean Surface Winds and Currents
	0.3	Ocean Temperature and Salinity
	0.4	Coastal Zones
	0.5	Ocean Altimetry
Mission, Sensors and Calibration	S.1	Satellite Missions
	S.2	Small Satellite Technology
	S.3	SAR Instrument and Calibration
	S.4	Scatterometer, Cloude and Rain Radar
	S.5	Microwave Radiometer Instruments and Calibration
	S.6	GNSS-R Sensors
	S.7	Lidar Sensors
	S.8	Passive Optical, Hyperspectral Sensors and Calibration
	S.9	UAV and Airborne Platforms
	S.10	Ground based Systems

Appendix H Sample Budget

Samples of budgets from previous IGARSS are available from the GRSS VP of Symposia and Meetings. The sample budget shown in the following pages is for reference only.
