

CALL FOR PAPERS

IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing Special Issue on “2026 IEEE International Geoscience and Remote Sensing Symposium (IGARSS 2026)”

The 2026 IEEE International Geoscience and Remote Sensing Symposium (IGARSS 2026) was held on August 9-14, 2026 in Washington, DC, USA. IGARSS is the leading scientific and technical forum in Remote Sensing and the premier annual event of the IEEE Geoscience and Remote Sensing Society (GRSS).

Along with the conference, a special issue of the IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing (J-STARS) is being coordinated, open to the authors of all papers presented during the conference.

Please note that papers submitted to this J-STARS special issue should NOT be the same as the IGARSS conference papers. A longer paper (6 to 10 pages) is typically expected, with a more detailed presentation of the work, enhanced techniques and approaches, and including additional data sets and comparisons in an enhanced experimental section.

In the cover letter, please provide the corresponding paper number for IGARSS 2026. If this information is not provided, the paper will be considered as a regular submission to the journal.

Schedule

15 September 2026: Submission system open

31 January 2027: Submission system closes

Format

All submissions will be peer reviewed according to the IEEE Geoscience and Remote Sensing Society guidelines. Submitted articles should not have been published or be under review elsewhere. Submit your manuscript on <http://mc.manuscriptcentral.com/jstars>, using the Manuscript Central interface, and select the “IGARSS 2026” special issue manuscript type. Prospective authors should consult the site <https://www.grss-ieee.org/publications/jstars-information-for-authors/> for guidelines and information on paper submission.

All submissions must be formatted using the IEEE standard format (double column, single-spaced). Please visit http://www.ieee.org/publications_standards/publications/authors/author_templates.html to download a template for the journal.

Please note that since 1 January 2025, IEEE J-STARS, as a fully open-access journal, charges a flat publication fee of \$1,800 per paper.
